

Hood Canal Salmon Enhancement Group Internship Opportunities ~ Research Assistants

HCSEG research assistant internships are available to undergraduate and graduate students. The research opportunities available have different time commitments in conjunction with corresponding credit hours and stipends. Stipends are awarded upon completion of contract hours.

Time Commitment (based on a 10 week quarter)	Stipend
100 hours; ~ 10 hrs/wk	\$250.00
200 hours; ~ 20 hrs/wk	\$500.00
300 hours; ~ 30 hrs/wk	\$750.00
400 hours; ~ 40 hrs/wk	\$1000.00

Stipends will be distributed in two installments upon the completion of committed contract hours. The first payment will be distributed at midterm and the last payment will be distributed at end of term.

Internship Opportunities Include:

- **Marine Water Quality Field Technician**
- **Steelhead Research Technician**
- **Nitrification Project Assistant - Smolt Trap Monitoring**
- **Nitrification Project Assistant - Spawner Surveys**
- **Summer Chum Sampling**

*Start and end dates of projects may not coincide with quarterly school schedules.
Start and end dates and/or weekly hour commitment for internships are negotiable and
must be determined before work commences.*

To apply:

Student must have a valid driver's license and dependable transportation. Must meet all requirements listed for specific internship opportunity.

To be considered, please submit a letter of interest, current resume, and an unofficial transcript. Eligible applicants will be contacted for an interview. All materials should be submitted to the Hood Canal Salmon Enhancement Group.
